DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to a method for detecting an inflammatory response in a breast of lactating mammal, which comprises measuring the amount of SAA protein or mRNA encoding such protein.

Group II, claim(s) 12-15, drawn to a kit for screening milk samples to detect inflammation in breasts of lactating mammals.

Group III, claim(s) 16-17, drawn to a method of accessing the ability of a treatment or agent to increase or decrease inflammation in breast tissue comprising measuring the amount of SAA protein in a sample.

Group IV, claim(s) 18-20, drawn to a method of evaluating quality of a milk sample which comprises measuring SAA protein in the milk sample.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the same or corresponding special technical feature is measuring SAA protein in milk sample to

study the inflammation of breast tissue. However such feature is taught in the prior art by Sipe et al. (US 5,536,640).

Sipe teaches a ligand/antiligand assay for adherent proteins including SAA protein. (see col. 7, lines 58-63).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
